

## CSCD 240

### Lab 7

**Problem Description:**

In lab 5 we wrote the number guessing game. We will now repeat that concept this time using functions. You have been provided with `cscd240_f13_lab7.c`. In this file are 7 function calls. See the C file for the calls the functions are numbered.

You are NOT allowed to change the code within main you will just add your prototypes and your functions.

**Submission:**

Zip file containing:

- Your C file named `cscd240_f13_lab7.c`
- A makefile
- 3 runs of your code named `cscd240_f13_lab7out.txt`.

You should know the naming scheme by now.
